OFFERS

Article 4.

Offers are without obligation, unless otherwise stated in writing.

DELIVERY GENERAL

Article 5.

- 1 Unless otherwise agreed, delivery is made "ex works" in accordance with the Incoterms. If, in the event of ex works delivery, the buyer/client does not make a means of transport available on the day of delivery, or otherwise makes delivery impossible, all direct damage and costs incurred by the seller/contractor as a result of such default are for the account of the buyer/client.
- 2 For the interpretation of the transport and delivery periods used in offers, purchase agreements and/or confirmations of purchase, custody agreements and/or custody confirmations, the description as stated in the Incoterms applicable at the time of the agreement are decisive in so far as these documents and/or these conditions do not deviate therefrom.
- 3 If delivery "carriage paid" has been agreed, delivery will be made carriage paid including insurance to the agreed place of destination and the following will also apply:
 - a. If the seller/contractor fails to deliver on the day of delivery, all direct damage and costs incurred by the buyer/client as a result of such default is for the account of the seller/contractor.
 - b. Any additional costs incurred by the buyer/client as a result of delivery to various warehouses is borne by the buyer/client.
- 4 If deliveries to buyer/client are made on a call-off basis, the buyer/client will ensure that the instructions for delivery are made known to the seller/contractor in such a timely manner before the stipulated term expires that the seller/contractor is still able to deliver within the term.
- 5 In the absence of any, or lack of clarity in, the agreed method of delivery, seller/contractor is entitled to deliver in a manner it deems correct.
- 6 Regardless of what has been agreed between the seller and buyer or the client/contractor with regard to payment terms, the seller/contractor is entitled, prior to delivery, to require the buyer/client to provide sufficient security for payment. If this security for payment is not provided within the reasonable period set by the seller/contractor or is not provided to a sufficient extent - at the discretion of the seller/contractor - the seller/contractor is entitled to suspend (further) performance of its obligations under the agreement. In that case, the seller/contractor will not be liable in any way whatsoever for any damage suffered by the buyer/client as a result of this suspension.
- 7 The seller/contractor will at the request of the buyer/contractor disclose the production date of the cheese.

LOADING AND UNLOADING INSTRUCTIONS

Article 6.

- 1 The buyer/client will give clear and timely instructions regarding the transport and the method of loading and unloading.
- 2 If a delivery of cheese for custody consists of several batches, the buyer/client will clearly and timely indicate which cheese belongs to which of the separate batches.
- 3 If the buyer/client fails to give the instructions referred to in paragraphs 1 and 2 in good time, all consequences arising therefrom will be for its account.
- 4 If the cheese is loaded by the seller/service provider on the instruction of the buyer/client, the seller/service provider is not liable for any overloading of the transport unit. In that case, the seller/contractor is explicitly indemnified against overloading by the buyer/client.

The package user may not in any way give the package delivered to it to others for use. The package user may not change the appearance of the package, or otherwise apply stickers, paint, marks, symbols or names thereto.
- 4 The package user will ensure that the package supplied to it by the package owner remains in good condition, i.e. clean and without defects. If, after return delivery by the package user to the package owner, it appears that the package is not in good condition, the package user is liable to the package owner for the costs. The package user will also be liable for all damage suffered by the package owner as a result of the package not being returned in good condition.
- 5 The package remains the inalienable property of the package owner. This package is provided with markings showing that it is owned by the package owner. Therefore, no one under any circumstances may invoke the right of ownership, possession, pledge or any other right in rem against the package owner.
- 6 The risk of the package not being returned on time, the loss of the package and/or the contamination or damage of the package is for the account of the package user, for whatever reason. The package owner is in that case entitled to retain the deposit paid by the package user, without prejudice to the right of the package owner to claim (additional) compensation from the package user.

TERMS OF PAYMENT

Article 9.

1. All amounts owed by the buyer/client to the seller/contractor for whatever reason will be paid immediately and without application of set-off on the agreed due date.
2. The custody fee and - if the cheese is insured through the cheese storage facility - the premiums and costs of insurance will be charged over the agreed period, whereby part of this period is regarded as a full period.
3. Unless otherwise agreed, a payment term of 28 days after the invoice date applies to the buyer/client. If payment has not been made within the aforementioned period by crediting to the seller/contractor's account, the buyer/client will be in default by the mere expiry of the term, without any summons or notice of default being required. In addition, the buyer or client will then owe an interest of 1.5% per calendar month on the outstanding amount from the day after expiry of the term of payment. A part of a calendar month is considered a complete calendar month. This interest is due and payable without any summons or notice of default being required. Furthermore, the buyer/client will reimburse the seller/contractor for all collection costs incurred by seller/contractor.
 - a. In particular, the buyer/client is liable to pay: invoices from lawyers, both in and out of court, also to the extent that they exceed the assessed amounts, costs of bailiffs, agents and collection agencies.
 - b. The above-mentioned extrajudicial costs of these third parties is fixed at 15% of the principal sum, with a minimum of € 100.
 - c. The buyer/client will also bear the costs of a bankruptcy petition as well as storage costs in the event of suspension of delivery.
 - d. The seller/contractor does not have to prove that claimed collection costs have been incurred.
4. Without prejudice to any statement to the contrary made by the buyer/client when making its payments and without prejudice to the administrative processing thereof by the seller/client, the payments made by the buyer/client will always and exclusively be deducted from any collection costs and interest owed by the buyer/client, secondly from those claims of the seller/client which relate to goods already resold and delivered by the buyer/client to third parties, and finally from the oldest outstanding invoices of the seller/client.
5. All claims of the seller/contractor against the buyer/client will be immediately due and payable if the buyer/client is declared bankrupt, applies for a suspension of payment, is declared subject to the Natural Persons Debt Rescheduling Act, attachment is levied on the buyer/client's assets, which attachment is not lifted within 30 days, or buyer/client otherwise loses the free disposal of (part of)

its assets, if buyer/client offers a settlement to its creditors, if it is in default of any obligation to seller/contractor, or if it ceases its business. The same applies if the business is conducted through a legal person and that legal person goes into liquidation.

6. All goods delivered by the seller remain its property - even after and despite processing or treatment - until the buyer has paid in full all claims relating to goods delivered or to be delivered pursuant to an agreement, including work performed or to be performed pursuant to such agreements and all claims for failure to perform such agreements including all collection costs and interest due.
7. The buyer will, at the seller's first request, establish an undisclosed pledge on the goods delivered for the benefit of the seller, if possible by means of reservation of ownership of the goods delivered, for all existing and future claims of the seller against the buyer, including all collection costs and interest due; the buyer is not permitted to establish a possessory or undisclosed pledge on the goods delivered by the seller for the benefit of a third party.
8. The buyer receives the goods belonging to the seller on loan and - if it is in default - it will make them available to the seller at the seller's first request and grant access to its business premises, where the goods are located, so that the seller can take possession of the goods by giving notice of termination of the loan agreement - which can take place with immediate effect.
9. The buyer is not entitled to pledge the goods, which are the property of the seller, to third parties (or to establish an undisclosed or possessory pledge on those goods for the benefit of a third party) or to transfer their possession to third parties, with the exception of sale and delivery to third parties in the normal course of its business.
10. As security for the payment of all that the buyer or client owes or will owe to the seller or contractor for whatever reason, the seller or contractor will have a right of retention and possessory pledge on all monies and cheeses of the buyer/client, which the seller/client has in its possession at any time.

ORIGIN OF THE CHEESE

Article 10

1. The seller/client will on request inform the buyer/contractor of the region in which the cheese was produced.
2. The cheese products are named in accordance with the nomenclature set out below in Article 17(2).
3. The seller/client will furthermore comply with all applicable statutory regulations and statutory specifications in the Netherlands.

LIABILITY & FORCE MAJEURE

Article 11

1. Force majeure within the meaning of these Trading Conditions is understood to mean that which is included in Dutch (case) law in this respect. Force majeure releases the seller/contractor and the buyer/client from the obligation to deliver or take delivery without the seller/contractor or buyer/client being able to assert any right to compensation on that account.
2. In the event of temporary force majeure, the seller/contractor will only be released from its obligation pursuant to paragraph 1 if the temporary force majeure has lasted for more than three months.

Article 11A

The obligation to pay compensation for non or improper performance will in no case include consequential damage to the goods or services delivered under that agreement. By consequential damage is meant at least loss of profit, loss of savings of costs or damage as a result of business stagnation. The limitation and/or exclusion of liability cannot be invoked in the event of wilful recklessness.

DISPUTES

Article 12

1. All disputes that may arise between the buyer/client and the seller/contractor - including their heirs

or assignees - both legal and factual, of whatever nature, as a result of or in connection with an agreement to which these Trading Conditions apply, or of further or related agreements or obligations under the law, will be submitted to arbitrators for decision, to the exclusion of the regular courts.

- 2 Contrary to the provisions of the previous paragraph, the seller/contractor may, however, submit a dispute or claim as referred to in that paragraph to the opinion of the competent subdistrict court, if the dispute or claim in question does not exceed the amount referred to in Section 93 Dutch Code of Civil Procedure.
- 3 Arbitration as referred to in paragraph 1 is also subject to the arbitration regulations of Stichting Nederlandse Zuivelbeurs, with its registered office in The Hague, as applicable at the time the dispute was submitted.
- 4 The provisions of paragraphs 1 and 2 of this article do not affect the right of the buyer and seller or the client and contractor to strive for an amicable settlement in accordance with the Dispute Settlement Rules at the start of the arbitration.
- 5 This dispute clause does not exclude the parties' right, in case of urgent matters, to apply to the District Court in preliminary relief proceedings and to take and maintain prejudgment legal measures.
- 6 If different agreements have been concluded between the same parties subject to these trading conditions and one of the parties fails to fulfil its obligations under one of the agreements with respect to the other or fails to pay the compensation provided in lieu thereof, the latter will, if the attributable failure is established by a decision of the arbitrators, be entitled to claim security from the defaulting party, if so desired by the arbitrators, for the proper fulfilment of its obligation under other agreements.
- 7 If, despite a demand to that effect, the security is not provided, the other party will be entitled to terminate all current agreements. In that case, the other party will be notified as soon as possible by registered letter that this right is being exercised.

APPLICABLE LAW

Article 13

All agreements to which these terms and conditions apply in whole or in part are governed by Dutch law. The provisions of the Vienna Sales Convention do not apply.

FINAL PROVISIONS

Article 14

1. Wherever these trading conditions refer to working days, this does not include Saturdays, Sundays and generally recognised public holidays according to the General Extension of Time Limits Act.
2. If any stipulation of these general trading conditions or any part of an agreement entered into under these general trading conditions should be null and void or be annulled, this will leave the other stipulations of these general trading conditions or the other parts of the agreement completely intact. In that case the parties will make an arrangement for the void or annulled stipulation or the void or annulled part of the agreement that comes closest to the original intention of the parties to the agreement and the related general trading conditions.

Chapter 2 Trade

PURCHASE SUBJECT TO INSPECTION

Article 15.

1. In the case of "purchase subject to inspection", the buyer has the right to inspect the cheese or have it inspected before receipt. The inspection will take place within a certain period of time, i.e. no later than the 2nd working day following the day on which the seller informs the buyer that the goods are available for inspection. As a rule, this is the 2nd working day following conclusion of the "purchase subject to inspection", unless a longer period has been agreed.
2. If, on the basis of the inspection carried out pursuant to the first paragraph, the goods do not meet the buyer's expectations, the agreement will be deemed to have been terminated.
3. If the buyer or its agent fails to carry out the inspection within the aforementioned period, the cheese will be considered to have been approved; any subsequent remarks cannot lead to termination of the agreement or any compensation, except in case of hidden defects.
4. Notification of whether or not the goods have been approved will be given to the seller or its agent on the day of inspection.

WEIGHT

Article 16.

1. The weight of the delivery determined by the seller is only binding for the buyer if no deviations occur upon weighing immediately upon arrival by the buyer.
2. The buyer will report the deviation from the weight to the seller and confirm this in writing, if possible on the same day, but no later than 2 working days after delivery. The seller will respond within 2 working days and confirm this in writing.

AGE OF THE CHEESE

Article 17.

 - b. Summer cheese is defined as the cheese produced in the months from June to August.
 - c. September cheese is defined as cheese produced in the period from 1 September to 15 October.

Article 18.

to	1,000 kg	5%
to	5,000 kg	4%
to	10,000 kg	2%
over	10,000 kg	2% up to a maximum of 1,000 kg.
2. Complaints about deviations from the purchase weight will be communicated to the other party in writing within 2 working days after receipt of the batch in question.
To determine any deviations from the purchase weight, the seller may have weighed the cheese no more than 8 hours before dispatch. The recipient will have weighed the cheese within 8 hours of receipt. The difference between the two weighings is the weight deviation. The time between dispatch and receipt is determined on the basis of the fastest route between dispatch address and receipt address. The time between dispatch and receipt is extended, where appropriate, with a delay due to traffic congestion and legal rest due to driving and rest periods legislation.
3. Without prejudice to the above provisions, the following standards for settlement will apply to weight deviations in natural cheese:
 - natural cheese with an age of 14 days up to 35 days may show a weight deviation of up to 0.2% without settlement taking place; a deviation in excess of 0.1% may be settled.
 - natural cheese aged between 35 days and 12 weeks may show a weight deviation of up to 0.1% without settlement taking place; a deviation in excess of 0.05% may be settled.

- natural cheese with an age of 12 weeks and older may show a weight deviation of up to 0.05% without settlement taking place; in deviation in excess of 0.05% may be settled.

2. The seller will send its invoice within 5 working days of delivery.

COMPLAINTS REGARDING DEFECTS

Article 21.

1. If, upon receipt, the delivered cheese does not comply with the agreement because the cheese shows a defect, complaints about this will only be dealt with if they have been submitted in writing within 5 working days after receipt of the goods, whereas a period of 2 working days applies to soft and fresh cheese.
2. If defects only become apparent after receipt, the buyer can only claim that the delivered goods do not comply with the agreement if it has notified the seller thereof within the following periods after it has discovered or reasonably should have discovered this:
 - a. in case of rind defects, the buyer will submit the claims to the seller in writing within 10 working days and these claims will only be considered until the cheese has reached the age of 42 days;
 - b. in case of defects other than those referred to above, complaints regarding actual hidden defects of both individual and type of goods will be submitted to the seller in writing within 10 working days of their discovery.
3. The seller will inform the buyer in writing of its position within 10 working days of receipt of the complaints.
4. If a dispute about which a claim has been submitted pursuant to paragraph 1 or 2 of this article is not resolved between the parties within a period of 6 weeks after the claim has been submitted or after the seller has made its position known in writing in the manner as referred to in paragraph 3, the party submitting the claim will request arbitration within 6 weeks thereafter, on pain of forfeiture of the claim, in the manner as described in Article 16 of the arbitration rules.
5. In assessing whether and when a buyer should reasonably have discovered a defect in the cheese (paragraph 2), the buyer's obligation to observe the standards of supervision and care set by practice and statutory regulations when storing the cheese will be taken into account. Cheese will be stored in a conditioned warehouse, while periodic inspections in relation to the type will take place, to be recorded in the buyer's warehouse logbook. In the case of whole naturally matured cheese, not packaged, a maximum temperature of 16° Celsius will be observed, unless agreed otherwise. All packaged cheese, including foil cheese, will be stored at 1-7° Celsius. The buyer will also ensure that the original packaging remains undamaged.
6. Contrary to the provisions of Section 7:23 Dutch Civil Code, the buyer will, under penalty of forfeiture of rights, complain in good time within the periods referred to in this section. If the seller invokes the buyer's forfeiture of rights in the event of a late complaint, the seller need not claim and/or prove any loss as a result of the late complaint.

Article 22.

- 1 Without prejudice to the right in Article 21, paragraphs 2 to 5, regarding hidden defects, the seller will no longer be liable for damage resulting from a hidden defect if a guarantee period listed below has elapsed between the day of delivery and the manifestation of a defect.

1. The other party of the defaulting party will inform the defaulting party in writing no later than the 2nd working day after the expiry of the term of delivery which course of action it will follow and it is free to grant the defaulting party a grace period in this respect. This grace period will, however, be properly defined.

When entering into the service agreement, the client will provide the contractor with a sound and sufficiently detailed written description of the cheese, stating the various types, qualities, weights, values, quantities, as well as all other details and/or specific characteristics of which knowledge by the contractor is important for the proper execution of the custody agreement.
